FOUR OF KAISER'S STEAMERS SE BY THE BELGIANS

Despatch Also States British Have Sunk Cruiser and Are Conveying Another to Gibraltar—Subjects of Fatherland in London Want to Become Citizens of United Kingdom.

Antwerp, Aug. 6 .- (3.10 p.m.) - During the anti-German demonstration here today several Germans fired into the crowd. Four German steamers were seized today by the Belgian authorities.

Invincible Navy at Work.

Madrid, Aug. 6.—A despatch from the Canary islands says a Brilish squadron has sunk one German crulser, the name of which is n.t given, and has captured another which is being conveyed to Gibraltar.

Went to Become Britons.

London, Aug. 6.—There was a rush of Germans of all classes to the home office today to secure British naturalization papers.

London, Aug. 6.—England waited today with anxlety for re-ports of the movement of the British fleet, of which virtually nothing had been heard since its departure some days ago under sealed orders. All eyes were turned toward the North sea whither it was generally assumed the war vessels had gone to encounter the German battleship squadrons.

ship squadrons.

Reports of firing and the arrival of a number of wounded German and British blue-jackets, at Harwich on the east coast, kept excitement at its highest point, as this was evidence that at least there had been contact between vessels of the opposing navies.

The morning passed off, however, without any more definite signs of an important clash between the powerful squadrons.

Messages from Belgium appeared to Indicate that the check of the Germans outside Liege yesterday had been a severe one, some reports giving the number of casualties as high as 8,000.

From Rome came a report that the German cruisers Goeben and Breslau had escaped the pursuit of French and British warships after bombarding the Algerian coast and had safely reached a Scillan port.

German war vessels are said to have penetrated the gulf of

spresiau had escaped the pursuit of French and British warships after bombarding the Algerian coast and had safely reached a Stellian port.

German war vessels are said to have penetrated the gulf of Finland and bombarded Sveatorg, the "Northern Gibraltar."

No definite confirmation of the reported ultimatum from Germany to Italy came to hand here.

As soon as Prince Lichnowsky, the German ambassador, left London today the American embassy assumed full care of German interests in the British Isles. Irwin B. Laughlin, the American excretary of the embassy, devoted himself to this business and all German subjects calling at the former German embassy were instructed to call at the American embassy.

Many Germans reside in England in order to escape military service but a great number of these are said to have applied to be permitted to serve in the German amy as soon as Emperor William offered pardon for deserting. So far the British government has not Issued any orders for the expulsion of Germans and none is expected, so that those now here are likely to remain. British families, however, are discharging all German Servants, governesses and charled of the destitute.

Mrs. Woodrow Wilson Dies at Washington

Washington, Aug. 6—Mrs. Wilson, wife of the president of the United States, died this afternoon.

At noon the condition of Mrs. Wilson had been announced as unchanged. Oxygen was then being given in increasing quantifies in order to keep her from possible sinking spells.

Little hope was entertained by the physicians for her recovery. Several specialists had been called in by Dr. Grayson during the past few days but their efforts have met with no success.

At 11 o'clock last night Mrs. Wilson, was resting easily, but her respiration was being assisted at times by artificial stimulants.

Because of the seriousness of Mrs. Wilson's condition and the Burronean crisis. President Wilson yesterday cancelled all engagements.

European crisis, President Wilson yesterday cancelled all engagements.

BRITISH AND FRENCH FORCES REPORTED TO BE STEADILY WINN

London, Aug. 6.—With the war on with Germany, all England today is looking toward the North sea, where her battle fleets at any moment may go into action.

British faith in the fleet and in the quality of training of the men behind its guns never

was stronger.

The most frequent comment heard in the streets is a fear that the German fleet may not venture out to give battle, but may choose to lie safely in harbor under the guns of the shore defences.

not venture out to give battle, but may choose to lie sately in harbor under the guns of the shore defences.

With every available fighting ship at sea, and with all naval movements cloaked behind the strictest military censorship, swarms of rumors are flying in all directions. Harwich, Eng., Aug. 6.—It is learned from authoritative sources that an action is now in progress in the North sea. The captain of a timber ship reports heavy gun firing north of Clapton throughout yesterday and heavy firing was heard here.

A cruiser anchored off Harwich pier has received a wireless message to be ready to receive 200 prisoners tonight.

The third flotilia, which left the harbor for the open sea at daybreak yesterday morning, went into action almost immediately. The flotilla returned last night, little damaged. The Amphion, flagship of the flotilla had her batteries slightly damaged.

Twenty-eight wounded have been brought ashore and taken to Hollry naval establishment opposite Harwich. Of the wounded 22 are Germans and six are English.

England's war movements produced a thrilling and impressive spectacle at Harwich at daybreak, when a second British fleet put to sea. As the vessels one by one silently and majestically steamed out of the barbor, the crews of the vessels still to go lined up and heartily cheered British comrades. Soon afterward a Hook of Holland boat crammed with passengers and an Antwerp boat, equally crowded, passed the fleet. The prisoners realized the significance of the fleet's departure and cheered lustily. They received hearty response from the sailors.

Relieve British Garrisons.

Shanghai, Aug. 6.—An official at the Japanese consulate here said today that upon receipt of first official news of the beginning of the clash of arms between England and Germany, Japan would send a flect with ten thousand men to attack Tsing-Tau and ten thousand more to relieve the British garrisons at Tien-Tsin and Pekin. Preparations for such action were now under way he said.

Expect Firing Today.

Hull, Eng., Aug. 6.—In anticipation of probable events, the local police today issued notices stating that there may be "firing practice off Humber today" and warning the inhabitants not to be alarmed

Harwich, Aug. 16.—The third torpedo boat floilila which left the harbor yesterday morning went into action immediately and returned last night but little damaged.

The batteries of the British flagship Amphion were slightly damaged. Twenty-two German and six English wounded have been brought ashore and removed to the naval establishment at Shotley.

German Steamers Seized.

Middlesborough, Eng., Aug. 6.—Two German steamers have been seized in the North Sea.

Malta (Via London), Aug. 6.—Brilish torpedo boat destroyers have captured and brought here a German Levant liner.

Neutral Waters.

London, Aug., 6—It is reported that Germany has sent an ultimatum to Italy. The report lacks official continuous transports and the strong antagonism existing believen Austrians and the triple alliance and declare herself of the strong antagonism of the strong and the triple alliance and declare herself on the side of Great Britain. London, Aug. 6—An exchange telepraph dispatch from Taris today attacs to Italy saying that unless Italy supports her allies war on her will be declaring war on Austria. Italy's alliance circles that Italy is on the eve of declaring wah on Austria. Italy's alliance with Austria was never popular with Italians. The two peoples, in their declaring way of the two peoples in their and the Balkans, are notoriously irreconclusile, the Telegraph says. Believed Action in Progress.

London, Aug. 6.—The Chronicle's correspondent at Harwich telegraphs that it is believed that an action is progressing in the North Sea. A wireless message received by the British destroyer, Virago orders her to prepare to receive 200 prisoners and wounded who are being brought in by a torpedo boat.

Reported Bombarding Finland.

London, Aug. 6.—The Daily Mall publishes a dispatch from Copenhagen stating the German squadron is bombarding Sveaborg, Finland.

Denmark Now Isolated,
Copenhagen, Aug. 6.—Heavy firing was heard at various points
on the North Sea yesterday. Denmark is isolated, all railway communication having ceased.

Capture German Cruiser.

London, Aug. 6.—The French embassy learns that the French fleet has captured a German cruiser.

Revolt in Hungary Sure to Come Says Editor Daily Elore

Decisive Battle on Land Not Expected for a Week

London, Aug. 6.—The plans of campaign of the various nations of war are being developed with methodical deliberation, and military authorities here are of the opinion that the alleged righting on the Russo-German frontiers has consisted of nothing but skirmishes between reconnoltering bodies of troops. They point out that it will take at least another week for the main armies of Germany, France and Russia to get into position for the decisive struggle. It is known now, however, that severe fighting is in progress in Belgium between the Belgians and the Germans and it has been reported that eighty thousand Germans have been repulsed near Liege, although the Belgian war minister only permits himself to say in his official reports that the Belgians are successfully meeting the German invaders. Little credence is placed in authoritative quarters here in the alleged "authentic information from Algiers in regard to the sinking or capture of German warships in the Mediterranean."

W. R. WILSON, MANAGER WM MACADAMS EDITOR EDMONTONEDWIEY CAPITAL OFFICE OF PUBLICATION-DAILY CAPITAL BLDG, 623-625 SECOND

THE REAL MEIGHEN-BORDEN'S LIEUTENANT.

Among many discredited features in the campaign waged on behalf of the notorious Roblin Government in Maniloba was the vicious attack made upon Rev. Dr. Gordon—better known, perhaps, as "Ralph Connor," the Canadian author—by Hon. Arthur Meighen. With temporary freedom from his work as the chief parliamentary spokesman for Mackenzie and Mann the Solicitor General hastened to Maniloba to endeavor to save the Roblin Ministry from deserved defeat and included in his efforts in this connection an outrageous attack upon the noted clergyman and author.

Mr. Meighen made his attack in his own town of Portage la Prairie. From prominent citizens of Portage la Prairie there has come condemnation of his action. At a recent meeting of the Portage la Prairie branch of the Social Service Council a resolution was passed censuring him for his "malicious and mendacious attack." Moreover, the resolution expressed keen regret that the Solicitor General should have degraded "the standard of public discussion" and trespassed on "the Principles of common veracity" by such reference as he made to Dr. Gordon. to Dr. Gordon.

To Dr. Gordon.

In Opposition, Mr. Meighen professed lofty principles and a burning zeal for the upliftment of the standards of public life. Even as a private member supporting the Borden Government he showed signs of independence and high ideals. Once given a portfolio, he threw aside all independence and has run contrary to the ideas he formerly professed. He has become the defender of all things Conservative whether good or bad; as a Conservative member has said, he has become "the gramophone for Mackenzie and Mann"; he has degraded public life by using statements which those who know the facts describe as both "malicious and mendacious." He has become fit colleague of men of the Rogers-Roblin school.

CANADA CONTRIBUTES TO BOTH SIDES.

CANADA CONTRIBUTES

TO BOTH SIDES.

Most of the men whom the government is now sending out of the country or encouraging to leave it, under the recent deportation regulations, are Austrians or Hungarians, says the Ottawa Free Press. Such, for instance, are the Ruthenians. They are going back to their native land. All are men of military training and as soon as they land will be given uniforms, and ritles and marched to the fighting line.

The government will send twenty or thirty thousand Canadians to the support of British arms in support of Britain, France, and Russia against Austria, Germany and Italy. The government therefore proposes to contribute to both sides in this struggle. The men we deport for idleness in a few weeks may be lined up against the Canadians we will send to swell the strength of England's armies.

Was there anything more short-sighted and ridiculous than this ever devised? It may not be legally possible to prevent them, but the departure of Hungarian patriots should at least be discouraged in every possible way. In fact, the government would be justified in going to considerable lengths to actively obstruct the movement. The census shows that there are some eighty thousand Austrians and Hungarians in Canada. While by no means all of them will go back to fight, reports indicate the likelishood of several thousand of them going. It is certain that every Austrian or Hungarian whom the government deports will be seized by the sergeants as soon as he lands.

For this, if for no other reason, a halt should be called to deportations until peace is restored.

For this, if for no other reason, a halt should be called to deportations until peace is restored.

THE IMPORTANT FEATURE IN THE TRAMWAYS DEAL.

IN THE TRAMWAYS DEAL.

To find a common ground between the city and the Tramways Limited corporation which proposes to build radial lines into the country districts should not be a difficult feat so long as the company is acting in good faith, with a bona fide intention to build and no covetousness toward the city's system.

What the company wants—or at least should be expected to want—is the omortunity to lay down ural freight and passengers at some central point within the city.

What the city wants—and must insist upon—is complete control of its own lines within the city.

These two things do not conflict. Subject to proper guarantees that the company will build without delay and that whatever lines are built shall come into the city's possession wherever the city boundary lines are extended to take them in, the city should be able to make the company an offer to handle its cars and passenger traffic on a ton-mile basis over city tracks. Terminal companies all over the continent do this without danger of losing control of their own trackage.

The important feature at issue is not the length of the

The important feature at issue is not the length of the term of the agreement, although there must, of course, be a date of termination. The important feature is that the company's ownership and control ceases at the city limits. Otherwise, the agreement becomes a franchise; and the city is not granting any franchises this A.D. 1914.

THE GERMAN EMPEROR'S EVIDENT OBSESSION.

An explanation of the German Emperor's jockeying to secure from France a declaration of war, rather than make the declaration himself, is to be found in the evident belief of the Kaiser that he is going to be able to smash France and collect

Kaiser that he is going to be able to smash France and collect an indemnity.

In the fixing of such an indemnity, the circumstance that France could be shown to be the aggressor would undoubtedly militate to the advantage of Germany and to the disadvantage of France.

The Kaiser's evident obsession is that he, as the war lord of Europe, is going to duplicate on a broader scale the per-formance of his ancestor when he crushed France at Sedan, took Alsace and Lorraine, and made France pay in indemnity the cost of the war.

Canadian Holiday Makers Running Short of Money

London, Aug. 6.—Hundreds of Canadian holiday makers are kicking their heels at the London hotels waiting a chance to return home. The cancelled sailing of Allan liner Tunislan this morning disappointed many who thought themselves backy to have secured berths although most of them were fully prepared to learn that the vessel could not sail. Everybody, including a number of visiting Americans, take their position most cheerfully, many being intensely relieved to have reached England from the continent. Some similar scenes take place around the cable offices, which many visitors seek, anatous to cable home for further funds, in view of their enforced extended stay here. Those visitors who had made arrangements for motor tours here find that all contracts are off owing to the uncertainty of the supply of petrol except that they undertake to pay themselves for the petrol when the price exceeds one shilling and nine pence a gallon. In all probability the price will reach three or four shilling per gallon. Motorists who may be stalled on journeys are permitted to cancel contracts, but must bear the heavy expense of sending the car back to London. The petrol price has not been raised in London, but is raising rapidly in the country. The admiratly announced this afternoon that the Tunislan may sail tomorrow. The sallings of all other lines hold good up to the present moment.

William Wallace—Scotland's Great Patriot

FOR nearly seven hundred years the sons and daughters of Scotland have revered the memory of Wallace. It is not too much to say that this will continue for seventy times seven hundred years. When but a youth the love of Personal and National Liberty burned so firectly in the breast of Wallace that he revolted against England's tyrannous rule. At the head of his gallant band of riders he won skirmish after skirmish, and finally, at the opportune time, quickly organized an army and routed the English at Stitling Bridge. William Wallace admired a good Barley-Malt brew just as do the Scotchmen of to-day, Prohibition has ever been a detestable word to the Scotch people. They will not have it enter into their private lives, and the Scotch vote is always registered by a large majority against such sumptuary legislation. In America they have done much to build up the country. Thousands of our solid Scotch citizens are patrons of the honest brews of Anheuser-Busch and have been constant users of BUDWEISER. They have helped to make the annual sales of this world-famed brand exceed those of any other beer by millions of bottles.
